## A STAR IS BORN ON MIKE CHURCH'S "ROAD TO INDEPENDENCE"

### The DVD Patriots Have Been Waiting For Is Completed And Ready For Release May 24, 2011

NEW ORLEANS, La – At 4:36am local time on May 14th, Mike Church completed final production on "Road To Independence: The Movie." During the final session, an additional 20 minutes of original orchestration and score were added as well as over 50 surround sound effects. In all, the effort has proven to be worth it as the latest offering from Founding Father Films promises to be as groundbreaking as previous releases from Church and Founding Father Films.

"I feel like I just gave birth to a founding document," says Church. "This film will thrill entire generations of movie fans whether they are familiar with the story or not. 'Road to Independence: The Movie' is suspenseful and patriotic - even hilarious in places, but it is riveting throughout."

Church adds that this labor of love wasn't his alone. Aside from the support of his fans, Church says his creative team clearly put their hearts into the project. "This story shows what a dedicated group of skilled, independent artists can achieve on film when they put their mind to it. My team's efforts are beyond superb, they are *inspired!*"

"Road to Independence: The Movie" will see its official release on May 24, 2011. The film will be available to retail outlets with general theatrical release to follow. Requests for screenings of the project have been pouring in from around the country. Planned venues include George Mason University later this year. Contact Cynthia Frawley via [TheCynthia@MikeChurch.com](mailto:TheCynthia@MikeChurch.com) for review copies or to secure interviews on the project.

## **ABOUT MIKE CHURCH & FOUNDING FATHER FILMS**

---

The Mike Church Show is the first-ever produced talk show on Sirius Satellite Radio. A radio talk show host, author, filmmaker, and singer/songwriter, Mike Church is best known for his fearless ability to skewer liberals and fake conservatives with searing, in-depth analysis. While Church has been lauded on a number of industry 'best of' lists over the years, he was honored as an "Up and Comer" by "The Hollywood Reporter," and most recently, he was named "The Most Radical Man On The Radio" by "The American Conservative." Still, his devoted fans know him best as "The King Dude." Church can currently be heard on Sirius XM Patriot Channel 166 & 144 respectively from 6-9a (EST) Monday through Friday.

Founding Father Films is dedicated to telling the truth about true American history. With writer/director Mike Church at the helm as CEO, the mission is simple: take what people aren't taught in school, teach them what was skipped over and make it entertaining in the process. Church is the also creator of the heralded documentaries, "The Road to Independence" and "The Fame of Our Fathers." The third chapter in that trilogy is "The Spirit of '76." Church also created the Operate Educate program as a mechanism for teachers to obtain a free copy of "The Road To Independence" for their classrooms (traditional and home-school scenarios). Run solely on donations, Operation Educate ensures that America's next generation goes into the world understanding how the Constitution came to be as well as its modern-day applications
